

Early Start Form

This form can be used by Head Start, ECEAP, and SPP Plus providers to enroll children who turned three-years-old after the birth date cut off for the program year.

Before starting in a Head Start or SPP Plus seat, the child must have already turned three and must have previously been enrolled in either Early Head Start or Early Intervention. The child's SPP enrollment must match their previous enrollment (i.e. children enrolled in Early Head Start must be enrolling into a Head Start seat; children enrolled in Early Intervention must be enrolling into a SPP Plus seat).

Before starting in an ECEAP seat, the child must have already turned three and meet the definition of eligible child in ECEAP Performance Standard PAO-38(1)(a-f).

Seattle is a Welcoming City because we believe in inclusion and equity. City employees do not ask about citizenship status and serve all residents regardless of immigration status. Immigrants and refugees are welcome here.

Please mark which of the following is true:

- ☐ Child was enrolled in an Early Head Start program
- ☐ Child was enrolled in an Early Intervention program
- ☐ Child is enrolling in ECEAP and meets the definition of eligible child
